*Government & Industry in Harmony with
the Environment*

5 Reasons QRI Should be on Your Team

1.

QRI was established in 1986 and takes pride in providing quality and reliable products to our clients with integrity.

2.

QRI is a multi-faceted company with experience providing services in construction, engineering, petrochemical, oil and gas and government industries.

3.

QRI has a stellar safety record (EMR < 1), and is committed to continuous staff training, adherence to best-practice standards and auditing performance metrics.

4.

QRI has vast experience providing field services to support environmental and subsurface investigations, geophysical and utility investigations and sampling in difficult and hard-to-access locations.

5.

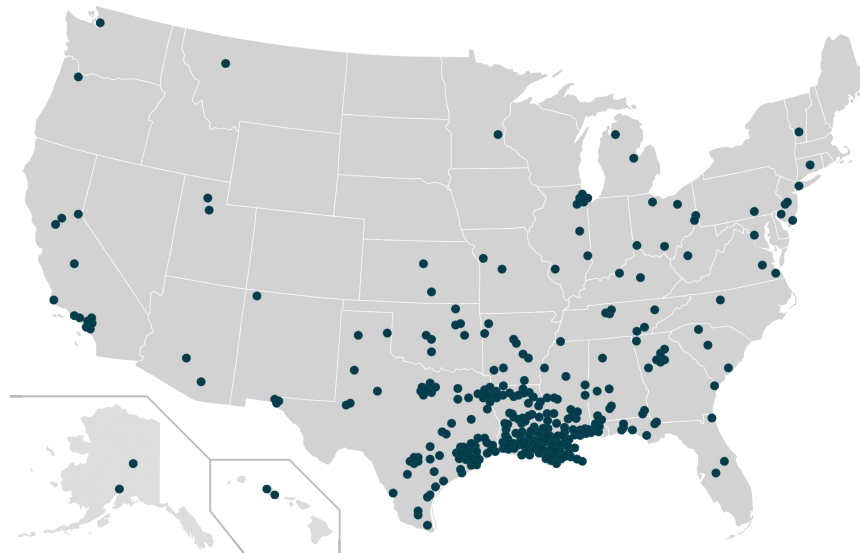

QRI's staff is experienced and trained to assess, address and solve problems to overcome issues and avoid costly schedule delays.
