A LEGACY OF DISASTER RECOVERY

QRI is a 39+ year-old Woman-Owned Small Business based in the LA with a proven track record in Disaster Response and Recovery. Because the Gulf South frequently faces natural disasters and with roots in the oilfield industry QRI excels in mobilizing quickly to support recovery efforts nationwide. With 35 completed contracts across USACE (7 Districts), USCG, USEPA, NOAA, LA GOHSEP, and BREC, QRI has managed projects ranging from debris removal to temporary housing and infrastructure restoration, totaling nearly \$60 million (see project details on the next page).

- QRI has numerous Federal Contract Vehicles including JVs:
- Super 8(a) joint ventures with large business partners, offering substantial resources and large bonding capacities for rapid response.
- Standard 8(a) joint ventures across multiple states.
- Partnerships with diverse JV partners for flexible project delivery.
- GSA Schedule holder.

Expertise across key NAICS Codes: 541620 – Environmental Consulting; 562119 – Waste Collection; 562910 – Remediation Services; 238910 – Site Preparation. Plus, capabilities in 541330 (Engineering), 236 (Vertical Construction), and 237 (Horizontal Construction).

QRI delivers fast, effective disaster recovery with a portfolio that spans from Hurricane Andrew to Hurricane Ida, along with numerous flood and tornado responses. With our GSA Schedule, existing Federal Contracts, and Joint Venture Partners, QRI delivers essential expertise and seamless execution for federal, state, and local agencies before and after declared disasters.
