Utility Locating

Years of Expertise

Quaternary Resource Investigations, LLC (QRI) is a Woman-Owned Small Business (WOSB) located in Baton Rouge, LA. Established in 1986, QRI has over 38 years of experience providing environmental and engineering consulting, environmental remediation, emergency response, geophysical assessments, and construction services.

QRI's Geophysical Division, founded in 1987, includes performance of 3,173 geophysical projects for federal and non-federal clients resulting in nearly \$20M of awarded task orders. Utilizing advanced equipment such as the GPR SIR 3000 computer alongside other project-specific tools, QRI conducts locates for both known and unknown utility lines on public and private properties including airports, emergency response sites, and construction environments.

QRI's relevant experience and projects includes serving as a Subcontractor to Tetra Tech on the USACE Mobile District Contract W9127820D0053, Task Order W9127820F0496 for Planning & Utilities Studies for the Department of Navy, Washington DC Navy Yard. Over the span of 109 days from 2021 to 2023, QRI provided utility locates at nine Navy, USCG, and US Secret Service locations, with a total contract value of \$460,376.42.
